

Summer Work: 7th Grade - Pre-Algebra/Pre-Algebra Enriched

1. Please do your work on a separate sheet of paper. **SHOW YOUR WORK.**
2. The answers are at the end of the document, so check as you go.
3. Bring completed work with you to class at the start of the year.
4. Do your best. Know that you will have an opportunity to ask questions if there are problems that you do not know how to do or do not remember fully.
5. There will be a diagnostic assessment in the first few weeks of class so that your teacher can assess your understanding.

Below are some IXL skills that are **RECOMMENDED** but not required for students entering Pre-Algebra or Pre-Algebra Enriched next year. A good rule of thumb is that a score of 80 reflects proficiency and a score of 90, mastery.
